University College Meeting

DEMONSTRATIONS

Biscoe T.J., Duchen M.R. & Wilson M.G.A. Use of the RML microcomputer 380Z for on-line testing of primary afferent terminal excitability in the mouse spinal cord *in vitro*. 2*P*

Clark R.P., Goff M.R. & Jagoe J.R. Computer pattern recognition of infra-red thermograms. 3*P*

Attwell D., Brew H., Mobbs P., Tessier-Lavigne M. & Wilson M. Use of patch-clamp recording to study Müller cells and bipolar cells isolated from, or in, slices of the axolotl retina. 4*P*

Whitaker Michael An imaging photon detector for the measurement of low-intensity luminescence. 5*P*

Shiells R.A. The dogfish retinal slice preparation: responses of rod horizontal cells to ionophoretically applied amino acids. 6*P*

Allen D.G., Eisner D.A. & Valdeolmillos M. The use of aequorin to measure intracellular calcium in voltage-clamped cardiac Purkinje fibres. 7*P*

Van Wagoner D. & Whittembury J. An improved current electrode/injection capillary for large cell voltage clamp. 8*P*

Johns L., Sargeant A.J. & Whittle M.W. The measurement of external knee moment during weight-lifting. 9*P*

Jones D. A. & Newham D.J. A simple apparatus for eccentric or concentric exercise of the biceps. 10*P*

Faulkner J.A. & Jones D.A. An apparatus for unilateral *in situ* exercise of the lower limb muscles of small mammals. 11*P*

Tofts Paul & Wray Susan A simple direct method for measuring concentrations of phosphorus-containing metabolites *in vitro* using nuclear magnetic resonance (NMR). 12*P*

Felgate T.C.G. & Gardner-Medwin A.R. Oxygen electrodes for use on the surface of brain tissue subjected to pressure during neurosurgery. 13*P*

Matthews B. & Myslinski N. Selective stimulation of afferent nerves in incisor tooth-pulp of the rat. 14*P*

Bindman Lynn J., Meyer T. & Prince C.A. Intracellular measurements of the electrical properties of neurones in the cerebral cortex of the rat: comparative data from slices *in vitro* and from the anaesthetized animal. 15*P*

Simons T.J.B. Ca transport by pigeon red blood cell mitochondria. 16*P*

Griffin G.E., McDougall A., Mian N. & Richardson P.S. A method for measuring the output of mucins from the hamster caecum. 17*P*

Dilly Stephen G. & Lab Max J. The temporovectorcardiogram (TVCG)–a new electrocardiographic technique. 18*P*

COMMUNICATIONS

Datta A.K., Fleming Jean R. & Stephens J.A. Effect of central nervous system lesions on the synchronization between motor unit discharge during voluntary contraction in human first dorsal interosseous muscle. 19*P*

Davey N.J. & Ellaway P.H. A dorsolateral spinal pathway controlling the pattern of gamma motoneurone discharge in the cat. 20*P*

Prochazka A. & Trend P.St.J. Instability in the control of arm position, evoked by increasing the stretch-responsiveness of muscle afferents in man. 21*P*

Lakie M., Walsh E.G. & Wright G.W. Absence of stretch reflex activity in a physiological tremor in man. 22*P*
